EDUCATIONAL VALUES

The education taught at EIB is founded upon the following principles:

DEVELOPING LEARNING SKILLS

Developing Critical Thinking

We encourage our students to think, to make decisions and to use all the means given to them to increase their knowledge.

- Conducting research in an intelligent and creative manner.
- Developing critical thinking skills. Learning to make decisions wisely after reflection, enabling students to solve complex problems.
- Communicating in more than one language and learning to respect the values and cultures of other students.
- Taking “risks” by tackling new situations without apprehension.

DEVELOPING INTERPERSONAL SKILLS AND THE FOLLOWING QUALITIES :

Developing Collaboration and Responsibility

- Tolerance
- Self-respect and respect for others
- Empathy
- Cooperation
- Integrity

And also:

- Responsibility
- Self-confidence
- Curiosity
- Enthusiasm
- Autonomy

INTERNATIONAL SCHOOL BILINGUAL SCHOOL

The success of our students also depends on their ability to communicate in both languages.

Our role and mission at EIB is also to permit students to come into contact with and to respect other cultures.

- **The French academic program is enhanced** and the academic level of the school is high. The number of hours of instruction in French, mathematics and history are identical to those of French schools.

- **The English academic program** follows the curriculum proposed by Anglophone educational establishments and is based on the same instructional materials. All English classrooms, from Preschool (starting at age 2) to primary, are equipped with an interactive whiteboard.

In Primary school the following subjects are taught in English: History/Geography, Sciences, Art, and Computer Skills.

- **In a bilingual environment**, students learn English and French in a natural way, by way of immersion with certified Anglophone and French teachers.

The linguistic immersion program is organised for children as young as two years old. English is therefore practiced on a daily basis and groups of different levels the teaching to be adapted to each student.

ANGLOPHONE CHILDREN / FRANCOPHONE CHILDREN

Children who do not speak French or English are accepted.

We offer individualised and academic upgrading courses, helping the integration of Anglophone students, and French students who have never studied French or English while respecting the natural pace of each child.

- enables the teachers to organise outings,
- enables the Mini-club to take the children to their various activities for free and to organise field trips.

SECURITY

Security is a high priority at our school. All angles of the school are covered by video cameras.

A physical education instructor provides a weekly sport lesson. Children benefit from a wide range of activities: athletics, basketball, hockey, swimming lessons and tennis lessons given by state instructors, gymnastics...
